

English Homework on **December 13th 2023.**

1. WestWorld is a futuristic amusement park which creates, with fantastic new technologies, virtual universes.

Among these universes, the Far West is the most famous and the most visited. There is a voluntary clash between past and future.

All the people of the park are androïds, named « hosts » in the serie. They must serve the visitors of the park, named « guests » or « newcomers ».

The guests pay very expensive fees to enter the park and have fun. They can do everything they want, without consequences, like in a dream.

Two characters, Billy and Logan, guests of the park, are pursued by an out of order android and they could be killed at any time.

Robert FORD is the designer of the WestWorld and the « father » of the androids. He may be crazy and dangerous.

Dolores and Peter are two important hosts, especially Dolores. She might be a dream ? She doesn't know. She could became human ?
